Temesgen Amsalu

Full-Stack Web Developer | Next.js, Node.js, Prisma ORM | Building Scalable Web Applications

Addis Ababa, Addis Ababa, Ethiopia

Summary

We are experienced JavaScript, Next.js, and Node.js developers with a strong background in building scalable web applications. Proficient in full-stack development, API integration, and database management. Seeking to leverage my expertise in a dynamic role at a forward-thinking tech company. This helps you get great transparency and clarity of my works and additional improvements I may suggest.

I have specialized in the following technologies

- NodeJS | Next.js | Express | Python for backend development
- MySQL | MongoDB | PostgreSQL | Prisma(ORM Tool) for the database systems
- React | Redux | Tailwind | HTML5/CSS3 for the frontend development
- Restful API | GraphQL for a communication scheme
- Deployment and Versioning Technologies
- Amazon AWS -integration with AWS - Git, GitHub

Experience

Kene Tech Solutions | Addis Ababa, Ethiopia, Ethiopia (Remote)

Back End Developer

January 2023 - June 2023 (6 months)

Ethiopia

Built and maintained APIs for client-facing applications, ensuring high performance and security by using Node.js and Prisma ORM.

Led the development of an API for managing appointments and user profiles in a medical web service, integrating Google authentication and email notifications.

Ensured database integrity by designing relational and NoSQL schemas, focusing on scalability and efficient query execution.

Collaborated with front-end developers to ensure seamless integration of back-end services with React-based applications.

Automated testing using Jest and other frameworks, ensuring code reliability and reducing regression issues.

Education

unity university

Bachelor of Science - BS, Computer Science · (September 2018 - September 2022)
