Hiring Manager
Qene Tech
Meskel Square
Addis Ababa, Ethiopia

Dear Hiring Manager,

I am excited to apply for the software engineering position at Qene . With a Bachelor's degree in Computer Science, strong experience in full-stack web development, and a passion for building innovative digital solutions, I am confident in my ability to contribute effectively to your team.

During my career, I have developed expertise in JavaScript, Next.js, Node.js, and have deployed multiple projects to Vercel, Railway, and Render, demonstrating my proficiency in modern web development practices. My technical experience is complemented by my ability to work collaboratively in a team setting, as well as independently when leading project initiatives.

One of the key reasons I am drawn to Qene is your commitment I have closely followed Qene Tech's journey in revolutionizing the African gaming scene, particularly with the success of Kukulu, a game that has become a milestone in Ethiopia's gaming industry by representing local culture in a unique and engaging way. Your company's commitment to bringing African stories to the global gaming market is inspiring, and I am eager to contribute to this mission.

With my expertise in JavaScript, Next.js, and Node.js, as well as my experience in building scalable web applications, I believe I can bring valuable technical skills to your team as you continue to create culturally rich and immersive games.

Thank you for considering my application. I look forward to discussing how my technical skills and passion for gaming can contribute to the continued success of Qene Tech.

Sincerely,
Temesgen Amsalu
